ABOUT MIKO

Miko has been active in coffee service for over 200 years and in plastic packaging for some 40 years now, and was floated on Euronext Brussels in 1998. Miko follows a “two-pillar strategy” in which its core activities – coffee service and plastic packaging – are practically independent entities with their own management, so that each activity can follow its own growth path. The group employs 700 people and achieved a turnover of EUR 138 million in 2012. The coffee service division accounted for 50,92 % of this total. The remaining 49,08 % was achieved by the plastic packaging division.
